95 Commencement Officials and Staff

Congratulations on the completion of your degrees! Earning a university degree is a milestone in your lives, and you and your families should be very proud of your accomplishment. I predict that in the years to come, you will increasingly appreciate the education you have received at Maryland. You have learned not only the facts and current theories that underlie your field, but you have also learned how to formulate and underpin your ideas. You may have thought that you were coming here to get your questions answered, but by now you have learned that you really came here to question your answers.

The University of Maryland has offered you opportunities to develop your academic interests and talents, and extend your intellectual and cultural horizons. These experiences will guide you throughout your life. You have also made new friends during your time here and found new mentors, and they too will enrich your life in many ways that no one can predict today.

As you leave us, I would like you to know how much we, the faculty and staff, appreciate your accomplishments as scholars, artists, athletes and leaders—as individuals. You have enriched our lives and have helped the university reach new levels of distinction and esteem. I urge you to stay connected with us and take full advantage of the benefits of being a member of the University of Maryland family. I hope that you will return to campus often, continue to support us, and help us shape the future of new generations of students. You are now members of the university's alumni family, and we welcome you to this special group. Please consider joining us for the campus-wide open house, Maryland Day 2003, on Saturday, April 26, 2003.

You have my very best wishes for success in all your endeavors. We are proud of each and every one of you!

Yours sincerely,
C. D. Mote, Jr.
President

On behalf of the University of Maryland Alumni Association, congratulations! I add our very best wishes to those you have received from your faculty and other university friends.

Your commencement ceremony today includes a special tradition. You will be officially inducted as a member of the Maryland Alumni Association by Paul Carey M.B.A. '82, this year's association president. Our gift to you on this day is a one-year complimentary membership.

Membership in the alumni association gives you an opportunity to stay involved with your alma mater, to go places and to continue to learn. Our programs meet many needs and interests—whether cultural, educational or recreational. Join us on a trip to Spain where a university professor is your guide, at the opera with representatives from the School of Music and, of course, at athletic events. Game watches around the country let you cheer on the Terps with fellow Maryland fans.

Learn more about the benefits and services that membership brings—and how to activate your membership online—at www.alumni.umd.edu.

The alumni association is also very pleased to offer you access to the Terp Alumni Network. The network is a free online alumni community, featuring an alumni directory and e-mail forwarding. Imagine your very own permanent and personal Terp e-mail address!

Whether it's virtual or face-to-face, we look forward to connecting with you often in the years ahead. Again, congratulations—and welcome to the Maryland family of alumni.

Sincerely,

Danita D. Nias '81

Executive Director, University of Maryland Alumni Association

The Spring Graduates

Candidates for degrees

Doctoral:	241
Master's:	1,213
Bachelor's:	4,040
Total	5,494

Five most popular undergraduate majors*

1. Criminology & Criminal Justice	344
2. Communication	285
3. Computer science	275
4. Finance	250
Psychology (tie)	250

Most popular master's degrees*

1. M.B.A., Business & Management	384
2. M.L.S., Library & Information Services	123
3. M.S., Electrical Engineering	80
M.E., Counseling and Personnel Services (tie)	80
4. M.S. Engineering	53
M.S. Mechanical Engineering (tie)	53

Most popular doctoral degrees*

1. Music	33
2. Computer Science	24
3. Economics	18
Electrical Engineering (tie)	18
4. Education Policy, Planning & Administration	17

* Based upon past three graduations:
May '01, Aug. '01, Dec. '01

Today you complete the journey that was undertaken several years ago, arriving proudly at the threshold of a new life. When you look back, can you see how this journey has changed you? As you sit here today, what events stand out in your mind as experiences that showed you which path to travel?

We have each followed a unique path but have reached a common destination. As seniors, it is easier to list the ways in which we are different from each other than the ways in which we are bound together.

We are accustomed to describing students in groups—commuters, residents; members of ethnic, religious, or professional organizations; students in particular departments and colleges. These differences should be admired and respected as should the many qualities we share.

From this point, you can reflect on past journeys. Remember what you learned along the way about who you are and what you are capable of achieving.

Know that your time spent at the University of Maryland will help you arrive at your next destination. Finally, always consider our campus to be another home, a stop on your life's journey to which you can always return.

Congratulations!

The Senior Council

Thursday, May 23, 2002 • Cole Student Activities Building • 9:00 a.m.

Presiding

Individual graduation exercises for colleges and schools will be held at various campus locations on Thursday and several ceremonies will take place on Wednesday evening. Guests are urged to be seated approximately one half-hour prior to the designated time for the ceremonies if they wish to observe the student and faculty processional.

Graduates, their families and friends are cordially invited and encouraged to join with university officials and members of the faculty at the reception to be held on McKeldin Mall following the campus-wide commencement. Shuttle bus service will provide free transportation across the campus throughout the day.

Campus-wide Commencement

A Bold New Era

From its pre-Civil War roots as the state's first agricultural college and one of America's original land grant institutions, the University of Maryland has emerged as a public research university of national stature, highly regarded for its broad base of excellence in teaching and research. Maryland's beautiful 1,200-acre campus is in the heart of the I-270 research corridor that is fueling a burgeoning information technology and biotechnology industry.

By virtually every measure of quality, the University of Maryland has gained national recognition as one of the fastest rising comprehensive research institutions in the country. In fall 2000, after a nationwide competition, the university received a grant of \$9.5

million of a \$90 million National Science Foundation fund created to support the most advanced IT research in the country. And that funding impacts research areas from engineering to computer science to geography to social sciences. The momentum of recent years has poised the university to move into the top ranks of higher education and take leadership in shaping the research university of the 21st century.

The university's commitment to quality education in a research environment is key to its academic reputation and the success of its graduates. The research enterprise infuses the curriculum at both the undergraduate and graduate levels, exposing students to the most pressing issues and challenges in their discipline and training them

to respond with rigor as well as creativity to contemporary problems.

There are 13 schools and colleges within the organizational structure of the University of Maryland. Seven of these units—the Smith School of Business, the College of Education, the Clark School of Engineering, the College of Journalism, the College of Computer, Mathematical and Physical Sciences, the College of Information Studies and the School of Public Affairs—have been recognized by their peers and in various rankings as among the 25 best in the nation. Today, there are 65 programs ranked in the Top 25 nationally for their academic quality. The breadth of this excellence is a source of pride for students, faculty and staff and is endorsement for the university's flagship status among the state's institutions of higher education.

The university has enjoyed a decade of momentum in all of the areas that affect quality. The average high school GPA of entering students has zoomed upward from 3.01 to 3.76, and the average SATs are now 1246. Sponsored research and outreach has nearly tripled in the same 10-year period, reaching \$308.5 million for FY01. Private giving has increased even more dramatically, from \$17 million to \$77 million in FY01. Alumni Association membership has been growing at an average rate of 10

percent a year since 1992. Coupled with renewed commitment from the state of Maryland for funding flagship initiatives, these factors ensure that the university will continue on a forward trajectory for many years to come.

One of the largest research universities in the United States, current enrollment stands at 25,099 undergraduate and 9,061 graduate students. There are 94 undergraduate programs, 89 master's programs, 70 doctoral programs, and one first professional degree program. More than 100 centers and institutes are engaged in research and outreach.

The university has licensed more than 750 technologies since 1986, and has been issued 135 U.S. patents. An average of two new invention disclosures each week are received by the Office of Technology Liaison, a reflection of the pace of innovative technologies being created at the university. Through its Maryland Industrial Partnerships Program, the university collaborates with more than 280 businesses and has spawned 20 new companies; three of which have been recognized as among the fastest growing in the state.

Faculty at the University of Maryland, in all fields of knowledge, are engaged at the highest levels of national and international concern. The university's location near the center of federal policy-making and international political

and economic activity enables it to play an active role in research and analysis of public policy. Strong links to the scientific and technological agencies and organizations of the federal government drive research in the environment, engineering, physics, computer science, life sciences and agriculture. Scholarship in the arts, humanities and social sciences is marked by the spirit of intellectual diversity and interdisciplinary collaboration.

Maryland is one of the research universities in the prestigious 61-member Association of American Universities and the only public institution in the Maryland-D.C. area with membership in the nation's most distinguished honor society, Phi Beta Kappa. It is classified as a Research-1 university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received, and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

History

The University of Maryland was founded in 1807 in Baltimore as a faculty-owned College of Medicine. The medical school was considered one of the top schools in the country, attracting notable professors and lecturers from throughout the world. In its beginning, tuition cost \$140, grades were sent home weekly to

The University Is On the Move

- **Our Constellation of Stars:** The quality of University of Maryland faculty ranks among the finest of any research university in the United States and includes one Nobel Prize winner, one Poet Laureate, six Pulitzer Prize winners and 32 National Academy members.
- **We're Zooming Ahead:** In the April 15, 2002, *U.S. News & World Report* graduate rankings for the University of Maryland, the College of Education has a dozen of its 15 programs in the top 25, including its overall ranking of 21st in the nation. The university now has 65 of its graduate and undergraduate programs or colleges ranked in the top 25. In fact, 45 programs are in the top 15. Of these, 22 are in the top 10 and four are No. 1.
- **A Bright Future Indeed:** As of April 30, the university raised \$452.6 million in the *Bold Vision • Bright Future* campaign against a goal of \$350 million. The campaign closes on June 30, 2002.
- **An Economic Force:** The University of Maryland generates \$5.93 of economic activity for every dollar appropriated by the General Assembly, providing a statewide impact of nearly \$1.8 billion annually.
- **An Impact of Another Kind:** NASA turned to the University of Maryland to lead a \$279 million mission that promises astronomers a first look inside a comet, revealing the pristine materials that form the basis of our solar system. The projectile is slated to reach Comet Tempel 1 on July 4, 2005.
- **Leading the Way:** In annual *Black Issues In Higher Education* rankings released last summer, Maryland was among the top 10 graduating African Americans in 13 programs.
- **A New Place to Celebrate:** University activities like athletic events and Commencement ceremonies will be held in the new Comcast Center arena beginning in the 2002-03 school year. Comcast Corp. made a \$20 million naming rights gift—the largest single donation ever to the flagship campus.

parents, and students could obtain room and board for \$300 annually.

Five years later, the growing institution was renamed the University of Maryland. Despite the name, the university was not considered a state institution as it was still owned and operated by faculty. Baltimore College of Dental Surgery, the first dental school in the world, became a part of the university in 1840, awarding the first Doctor of Dental Surgery (D.D.S.) degree in 1841.

In 1859, the Maryland Agricultural College, which would evolve into the University of Maryland, College Park, was opened under a charter secured by a group of Maryland planters in 1856. In addition to spending one hour each day hoeing or plowing on the college farm, students took a broad range of courses in ancient and modern languages, natural sciences, English and mathematics. After a disastrous fire on campus in 1912, the state acquired the college and rebuilt it.

In 1920, the state legislature combined the College Park institution with the professional schools in Baltimore to form an expanded University of Maryland. The entity eventually grew to include campuses in Baltimore County, the Eastern Shore and University College, a continuing education institution.

The following decades saw the increasing growth of student population, excellence in programs

and curricula, and the burgeoning of the University of Maryland, College Park, into a nationally recognized research institution.

July 1, 1988, marked the dawn of a new era in higher education in the state of Maryland, as the five components of the university were merged with six other state universities and colleges to form the University System of Maryland, and College Park secured its flagship status with a mandate to become one of the pre-eminent research universities in the nation.

The Alumni Association

With alumni clubs from Miami to

Taipei, Taiwan, the Maryland Alumni Association strives to keep and strengthen ties between the university and its graduates. Member events such as pre-game parties, bull roasts, picnics, golf tournaments, dinner cruises and subscriptions to *College Park* magazine and the biannual

Maryland Alumni supplement help keep alumni connected to the university and to each other. All graduating seniors and successful master's and Ph.D. candidates receive a one-year free membership in the Maryland Alumni Association.

The Alumni

The University of Maryland Alumni Association Hall of Fame recognizes graduates of the university who go on to distinguished careers in a variety of fields. The 35 outstanding individuals below have brought, and continue to bring, great honor to their alma mater.

Carmen Balthrop '71

World-class soprano

Adisai Bodharamak '70 Ph.D.

Telecommunications trailblazer

Waldo Burnside '49

Retail king

Harry Clifton "Curly" Byrd '08

Legendary University of Maryland president

Robert F. Chandler '34 Ph.D.

A founding father of the Green Revolution

A. James Clark '50

Construction magnate and benefactor

William P. Cole '10

U.S. congressman

Mary Stallings Coleman '35

First woman chief justice, Michigan Supreme Court

Ruth Davis '52 M.A., '55 Ph.D.

Respected scientist

Leonard Elmore '78

All-star player and scholar

Geary Francis "Swede" Eppley '20, '26 M.S.

Administrator, coach and soldier

Norman "Boomer" Esiason '84

Football hero

John Faber '26, '28 M.S., '37 Ph.D.

Legendary coach and distinguished professor

Charles L. Fefferman '66

Winner of Field's Medal, mathematic's highest honor

Robert E. Fischell '53 M.S., '96

Honorary Doctorate

Medical technology pioneer

Herbert A. Hauptman '55 Ph.D.

Nobel Laureate in Chemistry

Jim Henson '60

Beloved Muppets creator

Steny H. Hoyer '63

U.S. congressman

Harry R. Hughes '49

Popular Maryland governor

Carlisle H. Humelsine '37

Preservationist and statesman

Hugh Newell Jacobsen '51, '93

Honorary Doctorate

World renowned architect

Albin O. Kuhn '38, '39 M.S., '48 Ph.D.

Builder of the Baltimore campuses

George J. Laurer '51

Inventor of the Universal Product Code

Samuel J. LeFrak '40

Internationally acclaimed urban planning leader

Kathleen Magee '72 M.A.

Nurse and philanthropist

Wilbur Monroe (Munro) Leaf '27

Creator of "Ferdinand the Bull" story

Parren J. Mitchell '52

First African American student, U.S. congressman

Jane Cahill Pfeiffer '54

First woman to head a major network, named chair of NBC in 1978

Judith A. Resnik '77

Astronaut, died tragically in Challenger shuttle disaster

Chun-Shan Shen '61 Ph.D.

President of Taiwan's Tsing-Hua University

William Woolford Skinner 1895

Nationally prominent research chemist

Adele Hagner Stamp '24 M.A.

Maryland's first dean of women

Reginald Van Trump Truitt '14

Naturalist and Chesapeake Bay advocate

Millard E. Tydings '10

Introduced legislation to create the University of Maryland in 1920

Evelyn Pasteur Valentine '67

M.S., '86 Ed.D.

Educator and entrepreneur

The alumni association inducts graduates into the Hall of Fame every five years. The association will induct its third group of honorees in 2005.

Customs of Commencement

Early commencement ceremonies at the University of Maryland were marked with great fanfare and celebration. The faculty gave huge banquets for the graduates

the night before the event. The following morning, crowds gathered to watch the young graduates parade. It was a gala social occasion, attracting not only friends and relatives, but the fashionable elite of the day. At the ceremony, prayers were recited, speeches were made, and honorary degrees were awarded to distinguished figures from across the country. Finally, as the audience cheered and threw flowers, the graduates came forward to collect their Latin-inscribed degrees.

Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since the Middle Ages. The ordinary dress of the scholar, whether student or teacher, was similar to that of a cleric. Caps and gowns were probably worn to keep students warm in unheated buildings. Many medieval scholars were tonsured, like monks, and hoods served to cover their shaved heads until the skull cap later took its place.

Even after the Civil War, most students at American universities

wore caps and gowns daily while in residence. These varied in design until they were standardized by the American Intercollegiate Commission in 1894. At that time it was decided that all robes would be black. Colors on the trim of the gown were also standardized to indicate the scholar's academic discipline.

A list of department colors follows:

Agriculture: Maize
 Arts, Letters, Humanities: White
 Business Administration, Commercial Science: Drab
 Dentistry: Lilac
 Economics: Copper
 Education: Light Blue
 Engineering: Orange
 Fine Arts, Architecture: Brown
 Forestry: Russet
 Home Economics: Maroon
 Journalism: Crimson
 Law: Purple
 Library Science: Lemon
 Medicine: Green
 Music: Pink
 Nursing: Apricot
 Oratory, Speech: Silver Gray
 Pharmacy: Olive
 Philanthropy: Rose
 Philosophy: Dark Blue
 Public Administration, Foreign Service: Peacock Blue
 Public Health: Salmon
 Physical Education: Sage Green
 Science: Golden Yellow
 Social Work: Citron
 Theology and Divinity: Scarlet
 Veterinary Sciences: Gray

The tassel may also be colored to represent an academic discipline or it may be black. Officially, the tassel is permitted "to lie where it will" on the mortarboard. However, numerous institutions have adopted the practice of having degree candidates wear the tassel on the right front side at the start of the commencement ceremony and then shift them to the left side after degrees are awarded.

Student Marshals

Elected through a nomination process, student marshals are senior leaders who play an important role in the graduation ceremony. Student marshals assist in organizing the thousands of graduates, leading them smoothly through the commencement procession. They also supply extra caps and hoods, and bobby pins to keep headwear secure. May 2002 marshals are listed on page 78 of this booklet.

Senior Gift

The senior gift is a university tradition dating back 90 years. The first senior gift, the iron gate entrance at the Rossborough Inn, was given by the Class of 1910 (although the gate itself was not erected until 1941). The Class of 2002 will leave its mark with the creation of Terrapin Gardens, a quiet park near Memorial Chapel that is intended as a place for reflection on the past academic year. Engraved landscaping stones

will commemorate such momentous events as September 11, the tornado, Nelson Mandela's visit, Cole's last game, the university's first NCAA men's basketball championship, as well as quotes from senior class members about the significance of the year.

The purpose of the senior gift is twofold. Each year the senior class leaves behind a memorable legacy for new students and visitors, and provides the university with a gift that enhances the campus atmosphere.

Past senior gifts have included: the Testudo statue (Class of 1933), the lights around the "M" in the traffic circle on Campus Drive (Class of 1986), restoration of the Chapel chimes and clock face (Class of 1992) and the Bronzed Seal on North Gate House (Class of 1995).

Academic Degrees

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide. The University of Maryland offers degrees in 94 undergraduate majors, 89 master's programs, 70 doctoral programs and one first professional degree.

The Doctor's Degree

The doctor's degree represents the most advanced earned degree conferred by American institutions.

There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Juris Doctor, Doctor of Pharmacy, and Doctor of Veterinary Medicine. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees ever on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery (D.D.S.).

The University of Maryland conveys the Doctor of Veterinary Medicine (D.V.M.) to approximately 90 students each year in a program that was instituted in 1980. Graduates receive a diploma containing the seals of both the University of Maryland and its partner institution, the Virginia Polytechnic Institute and State University.

The second type is the research doctorate representing prolonged periods of advanced study. A dissertation that usually accompanies the study is intended to contribute substantially to the body of knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the

major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

The Master's Degree

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate.

A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. It was first conferred in America in 1642 on

the first nine graduates of Harvard College. Maryland Agriculture College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) in 1862.

Fall 2001 Students at a Glance:

Countries represented:	120+

As a reporter and editor, Bill Marimow has garnered prizes for excellence, including two Pulitzers for his writing. What keeps him vitally interested in the newspaper business after more than 30 years, however, is his belief in the continued primacy of the written word to convey complex ideas, to help people make sense of their world, and to prod public officials to act.

That's a formidable challenge. Every day the Internet and television challenge print's position as the premier bearer of information. Marimow says, "TV is a wonderful, instantaneous recorder of events. But in the aftermath of September 11, newspapers enabled people to understand and analyze what happened. It requires the written word, absorbed and digested at your own pace, to maximize your learning."

Those ideas helped propel *The Sun* to directly address a serious reading problem in the school system in 1997. Then-editor John Carroll and managing editor Marimow "put their heads together," and came up with a five-year Sun commitment to helping children learn to read—Reading by 9. "We wanted focus the big spotlight of the newspaper on the reading problem through expanded coverage," says Marimow. One result of the program was the pledge by Gov. Parris Glendening to add 1,100 new teachers for early-grade reading. In 1999, the program received the Charles E. Scripps Award for Distinguished Service to Literacy.

Creating a public stir is nothing new to Marimow. In 1977, he and fellow *Philadelphia Inquirer* reporter John Neumann wrote a Pulitzer Prize-winning series of articles about police violence in Philadelphia. The pieces infuriated Mayor Frank Rizzo, but also sparked criminal investigations by the Justice Department and the

district attorney's office. Marimow won a second Pulitzer in 1985 for stories about Philadelphia Police Department K-9 dog attacks on prisoners that led Mayor Wilson Goode to order new rules for the force. During his nine years at *The Sun*, the newspaper has published a Pulitzer Prize-winning series on shipbreaking that led to investigations of the industry as well as a series on a high-powered state senator that resulted in his ouster.

He is known at *The Sun* as a reporter's editor and in the industry as a champion of in-depth narratives that can take months of research. Marimow cites among his mentors Gene Roberts, former *Philadelphia Inquirer* editor and now professor of journalism at the Philip Merrill College of Journalism. "From Roberts I learned that when reporters cover a beat they can use that beat to spin out news stories, features, profiles, analysis stories and investigative articles that get closer to the truth than the more stenographic recounting of daily events."

Marimow became a reporter in part because of the uncertainties presented by war in Vietnam when he graduated from Trinity College with an English degree in 1969. "I decided to do something I loved for a year," he says. He went home to Philadelphia, worked as a reporter for Chilton publishing and was hooked. He went on to the *Philadelphia Bulletin* and then the *Inquirer*, where he stayed for 21 years.

As a Nieman Fellow at Harvard Law School, Marimow studied the First Amendment. He is married to artist and teacher Diane Marimow, who serves on the selection committee of the Baltimore Incentive Awards program. They have two children, Ann, a newspaper reporter in California; and Scott, who graduates from the University of Pennsylvania in June. Marimow is a member of the Board of Visitors at the Philip Merrill College of Journalism.

Editor, Senior Vice President,
The [Baltimore] Sun

Anoma Nellore

When Anoma Nellore was looking for a college, she applied to Harvard, Yale, Princeton and Maryland. She was accepted by all. Nellore knew that she wanted to major in both a social science and a "hard" science. She knew she wanted to have personal contact with her professors. So, she called faculty members at Harvard and Maryland to talk about their work. "The Maryland professors all called me back," she says. And when she asked about taking the double major, Maryland agreed. Nellore came to College Park and never looked back. "I couldn't have been happier."

A Banneker Key scholarship recipient with a double major in biochemistry and government and politics, Nellore maintained a 4.0 average. On campus, she served on the University Senate as a representative for the College of Life Sciences. She joined the Student Honor Council, moving onto the Executive Committee in her senior year. Nellore taught freshmen about the honor code in hopes of preventing future academic dishonesty cases. As presiding officer of hearings, she often had to bring lawyers and even parents into line. "I had to remain impartial yet guide my novice board members in their deliberations. That was a very maturing experience," she says.

Off campus, Nellore has satisfied her call to help others and to try new things. She traveled to Vietnam where among other things she volunteered at a plastic surgery clinic and studied the plight of the minority Hmong in the country. Horrified by the scourge of AIDS, Nellore formed and led a Gemstone AIDS in Africa Group. As part of that project, Nellore helped create a participant list of

African women theologians for an HIV/AIDS interfaith conference held at Yale Divinity School in March, where she also structured and led small-group workshops of African women theologians. "In this sojourn I have met so many excellent, inspiring individuals, some HIV positive." In her home county of Harford, Nellore worked at a methadone clinic in the summer of 2001, seeing the ravages of addiction close to home. During the summer of 1999, Nellore interned in London, England, with the Merton/Sutton/Wansworth Heath Authority. While there, she also attended the Raindance Film School, where she received a certificate as an independent filmmaker. "I probably will never make a film, but now I've gotten to know creative people who do and how they think. I had a lot of fun."

Whether she's in London, Vietnam, Bel Air or College Park, no experience seems lost on Nellore. She gains from them all, contributes to them, and assimilates what she learns with her own beliefs and values. "Through my experiences and exposures over the past four years, I have come to realize that all the people of the world are linked through their sufferings and mortality. I believe the prosperous people of the world have a responsibility for the not-so-fortunate."

In September, Nellore will begin medical school at the University of Pennsylvania on a full scholarship from the Jack Kent Cooke Foundation. "Medicine is a field with incredible opportunities for me to practice my belief. We live in a new world of biotechnology, gene therapy and cloning. I intend to weigh in on these issues as a physician and a teacher."

Before entering the University of Maryland, Zac Bookman sold his lawn business. He invested the money he had made from it throughout high school—\$50,000—into a stock portfolio, bought a car, took a six-week vacation in Europe and got ready for college. He was 18 and had had the business since he was 12, starting with one lawnmower and ending with 22 lawn contracts, a fleet of equipment, and an employee. He graduates from the University of Maryland with a degree in government and politics, *summa cum laude*, Phi Beta Kappa and as a Dean's Academic Scholar.

At Maryland, Bookman enrolled in the University Honors program. His business acumen also led to involvement with the Hinman CEOs and an internship with a New York investment bank. In addition, Bookman spent his junior year as a visiting student at Oxford University. While there he won a leading part in an Oxford production of Tom Stoppard's "The Real Inspector Hound," made the men's fourth varsity cross-country team, earned third place at a university-wide chess tournament, and played flanker for the rugby team. He says, "I relish the opportunity to do things I have never done."

Impressive as those pursuits are, it was a fundraising trip to Morocco that made an indelible impression on Bookman. On behalf of British-based charity Link Africa, Bookman and two British friends hitchhiked from Oxford, England, through Europe to the North African country, raising money and awareness for community development in Africa's poorest regions. He stayed in Morocco for 20 days, traveling through the Atlas

Mountains, the Imperial cities, the Sahara Desert and the Atlantic coast. He says, "Never have I seen such conflicting images of wealth and poverty and carefree attitudes alongside religious asceticism. An image I have is of a boulevard in Morocco's second largest city, Fez. The street is lined with outdoor cafés and nearly every man is sipping mint tea, socializing and watching the world go by for hours on end. The tea happens to be delicious, but this day-long routine was the forced result of an unemployment rate exceeding 50 percent. Although I have worked hard to take advantage of academic and business opportunities, I am privileged even to have such opportunities. Attaining my own financial freedom has been one of my greatest achievements, but it has also opened my eyes to the broader implications of financial independence."

Funded by two research grants, Bookman traveled in January to Argentina and Uruguay to study the effects of globalization. After graduation, Bookman will assume a managerial position with a real estate investment firm. His mentors and professors, however, foresee a more public future. Concludes Karen Thornton, associate director of the Hinman CEOs, "Zac has the intellect and the commitment to social problems of a world leader. He is a truly extraordinary young man."

Master of Science

Daniel Austria Bautista
 Michelle Marie Colby
 Julia Kelly Rhodes

Doctor of Philosophy

Zhuhui Huang

The May 2002 class roster comprises degree candidates from the graduate and undergraduate programs at the University of Maryland, College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative only. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of Records and Registration.

A. James Clark School of Engineering

Bachelor of Science

Aerospace Engineering

Sean Michael Bailey
Theresa Frances Battaglia

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listing of colleges or schools.

To be eligible for consideration for such honors a candidate must meet the following general criteria: (1) have completed at least two years of work at the University of Maryland (60 semester hours, 30 of which were earned at the College Park campus) and (2) have a scholastic average of a "B" (grade point average of 3.0) or higher in the University of Maryland work prior to the last semester of registration before the awarding of a degree.

Degree candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designators *Summa cum Laude* (if they ranked in the top 2 percent of the candidates in their respective colleges or schools), *Magna cum Laude* (if in the next 3 percent), or *cum Laude* (if in the next 5 percent) based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

University Honors Citations

Students who have earned the University Honors Citation may wear red and gold braided cords over their academic gowns.

The Senior Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administrators and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.

May 2002

ZOOM, GRADS.

Time flies. We hope you enjoyed your days and nights here at the University of Maryland. Of course, now you'll be zooming off to show the world what you can do armed with an education from one of the finest research universities in the country. Congratulations on your achievement. Be sure to zoom back and visit.
